ICSSR Conference – Paper Presentation on ASHA Workers

Organized by WeSchool, Bangalore in association with ICSSR | 29th May 2025

Students from the **PG Department of Commerce, St. Francis College** in collaboration with the Outreach Cell, proudly participated in the **ICSSR Conference** held at WeSchool, Bangalore on 29th May 2025. The presented research paper focused on **ASHA (Accredited Social Health Activist) workers**, highlighting their indispensable contributions to rural healthcare, particularly in maternal and child health.

The paper emphasized the challenges ASHA workers face—low remuneration, heavy workload, and lack of recognition—while showcasing their role as the backbone of India's public health system. Evaluated by an expert academic panel, the presentation received appreciation for its relevance and analytical depth.

The conference provided students with valuable exposure to academic forums, enhancing their research, presentation, and public speaking skills. It was a meaningful step toward social awareness and community-driven research.
