PRE –PLACEMENT TRAINING BY BHUMI – Report

PG Department of Commerce

Pre-Placement Training Program
Organized by the PG Department of Commerce | 12th–14th May 2025

The PG Department of Commerce organized a **three-day Pre-Placement Training Program** from 12th to 14th May 2025, aimed at equipping M.Com (Regular) students with essential technical and professional skills. Conducted in association with resource persons from *Bhumi*, the training offered a balanced mix of Python programming fundamentals and soft skill development.

Sessions covered core Python concepts such as syntax, loops, functions, and basic logic building, while also guiding students in resume writing, group discussions, and mock interviews. The training enhanced students' coding proficiency, communication skills, and interview readiness, providing them with a competitive edge for campus placements.

Coordinated by Dr. Thanapackiam, Dr. Chandrika Reddy, and Ms. Shrunga A M, the program was well-received and significantly contributed to the students' overall career preparedness.
